

1. Product

Safety signs in aluminium composite material.

2. Product Description

The signs are manufactured in 3mm thick white aluminium composite material and feature an anti-graffiti protective clear film.

3. Application

According to  Everlux® - Photoluminescent Maritime Safety Signs catalogue, chapter "Water safety Signs".

4. Fire resistance

Non inflammable, self-extinguishable (corresponds to fire resistance class M1).

5. Dimensions, Pictograms and Colours

The products are in conformity to our catalogue and according to National and International Norms and Legislation.

6. Printing

Serigraphy: high quality gloss paint with UV resistance.

7. Cleanliness

The products do not require any particular attention, clean with a dry clean cloth or a cloth humidified with water (without detergents).

8. Guarantee

In normal conditions of mounting and adequate cleanness, we offer a 3 years guarantee.
The signs feature an anti-graffiti protective clear film. This film, besides the anti-vandalism features, also provides signs with effective protection for outdoor installations, humid environments or in the presence of water containing a strong acid or alkaline content (e.g.: lime and chlorine).

9. Health and safety

The product does not contain any radioactive substances.
In toxic terms the product is considered as safe (European norm EN 71-3).

10. Quality and Certification

The quality of  Everlux® products is ensured by a rigorous process of quality control with tests in our own laboratory observing all applicable standards and regulations.

11. Legislation and Normative references

All of our signs are in conformity to the following standards:

- ISO 7010
- Norms ISO 3864
- ISO 20712-1
- BS 5499-11
